Players from one person to a team
Mobile Phone or Tablet with camera
Internet browser
Everyday environment
Preparation

Each player can choose whether to play alone or in company. There are no limitations to how many people can play together as a team.

In order to play you need to sign in here: www.seppo.io (see instructions below).

Playing the Game

The game starts on Thursday 18th October at 11 am. and ends at 12 pm. Follow the order of the tasks given.

There is no right or wrong way to complete the tasks. You can adjust your answer to the circumstances you are playing in. What is not forbidden, is allowed. It is recommended to make your own interpretations.

It doesn't matter if you don't have time to finish all the tasks. It only means that you are brilliant!

During the game algorithm (meaning we) evaluates the data you produce. You will get some bonus tasks that will deepen into the challenges you have in your life.

At the end of the game you will get the power sentence you need at the moment. Hopefully It will make your day!

The images you download on Seppo while playing will be part of the collage of images projected during the festival.

How to play?

Open your internet browser on your device and go to page www.seppo.io .
Log in as a player.

PIN code: 408BB8

Name your team and press "Continue".

The game gives you a Player Code. Take a screenshot of the code. (You might need it if something happens and you need to login again. See notes below.)

Proceed to the game.

Notes

In case you accidentally end up being logged out of the game and you need to login again: Proceed instructions from one to three. Instead of PIN code give the player code (the one in your screenshot) which will lead you back to the game.

If you have any questions while playing you can always chat with the artists (shoutbox or private message in the game).

Before sending your answer double check that the image/video has downloaded properly (you can see the image on the page of your answer).

Have fun!
